The initial intent of the Wine Barn was to grow grapes for sale and enter into winemaking as a hobby. Demands by friends to sell our wines as well as success in local competitions, inspired our quest to develop a winery. We opened our doors for business in May 2009. At that time the Hiatt's and the Coco 's were partners in the business. Since then, the Hiatt family has acquired ownership. Their daughter and son-in-law, Celeste and Brian Mikijanis, are now partners in the business.
